

An Open Letter to EVERY Candidate !

Dear Candidate:

The average voter no longer trusts politicians! Or their campaign promises.

We will no longer hold our noses and simply "vote for the lesser of two evils". BOTH political parties have failed us miserably.

We demand PROOF that YOU will not turn out to be just another pawn of the powerful special interest groups.

Therefore, we INSIST - as a prerequisite for OUR vote - that you PUBLICLY ENDORSE the following resolution:

"Wall Street shenanigans did so much damage that they triggered the Great Recession and almost collapsed the economy. Then Wall Street got a huge bailout, made a big profit, and paid themselves big bonuses. All this at taxpayer expense.

"None of the guilty parties were ever thrown into prison. Any 'fines' they paid were tiny compared to the damage they did and the money they swindled.

"Furthermore, all of this could happen AGAIN! The politicians have done nothing serious enough to really prevent this!

"WE DEMAND: First, outlaw the guilty entities. Second, seize their assets and return the money to the taxpayer. Third, sentence their top managers to LONG prison sentences - without parole - or even death."

If NO candidate has the guts to take this stand, we will either boycott the election or run independent candidates or write-in our own candidates.

Sincerely,

Gerhard Lauck
